

MOTION BY SUPERVISOR MICHAEL D. ANTONOVICH

APRIL 6, 2004

A portion of Rosemead Boulevard between the Foothill Freeway (I-210) and the San Bernardino Freeway (I-10), presently a State Highway, is within County unincorporated area. In an effort to improve this portion of Rosemead Boulevard, the County is working with the State to relinquish jurisdiction of that road segment to the County. Cooperative efforts are under way with State technical staff and Senator Jack Scott, who introduced Senate Bill 1375 to accomplish the relinquishment. The relinquishment would allow the County to construct improvements that would improve the infrastructure and appearance of Rosemead Boulevard, a long-standing concern of residents in the communities which adjoin Rosemead Boulevard, Chapman Woods and Michillinda Park. The County's acceptance of the relinquishment is contingent upon the terms and conditions of a future agreement between the State and the County. Funding to bring the roadway to acceptable County standards will be provided by the State as part of this agreement. **In order to meet desired timelines to effect improvements to the roadway, an urgency clause has been requested to be included in the bill to ensure timely approval.**

With respect to future maintenance, funding for maintenance of the relinquished portion of Rosemead Boulevard will come primarily from State gas tax funds allocated to the county and programmed in the Fifth District.

I, THEREFORE, MOVE that this Board send a five-signature letter to Senator Scott in support of SB 1375 **with inclusion of the necessary urgency clause.**
